

Good Bye Hazel!

After nearly 35 years teaching in the Small Pool Hazel French is leaving due to medical reasons. She started her teaching career when both her daughters started swimming. There was two hours between the girls' lessons and they were short of help, so Hazel volunteered. She went on to achieve two teaching qualifications and to lead the teaching of our future champions. A lot of the lifeguards on the poolside at FLC were taught to swim by Hazel.

Her biggest challenge was a child with Muscular Dystrophy, and then a child with Autism who joined at the age of 12 and completely soaked Hazel who was standing on poolside. She felt the pool was a family thing as she worked with both the children and their parents. She leaves with many fond memories and feels lucky to have made many friends through her time at the Small Pool.

The Club will miss such a fantastic teacher who has started the swimming career of National Swimmers to those wanting to be safe in the pool in the summer. Her last day is Monday 25th November, but there is some flexibility with this. We wish her well and hope she keeps in contact.
